Working agricultural lands were derived from January 2008 Kittitas County tax parcel dataset by CORE GIS on behalf of Cascade Land Conservancy. These lands include parcels enrolled in Kittitas County Current Use Open Space farm and Agriculture taxation programs as well as parcels identified by the County Assessor as appearing to support crop or livestock production related activities.

All other public lands shown on this map are derived from the Washington Protected Lands Database (2004) created by CommEn Space and updated by Cascade Land Conservancy (2007).
