Mr. Cruse,

Greetings. I am going through my files and checking off where each one is. Were you able to get the dimensions needed for Health?

Thank you for your time,

Greetings. It looks like Health will need to have some additional information on that proposed Boundary Line Adjustment in order to accurately comment. As proposed, the application shows the locations of the septic and water sources, but does not show measurements of their distances from

property lines. You can either send me an electronic version of the scale map or drop off a paper version. Thanks!

Dusty

In this BLA, two proposed boundary lines are close to two existing wells. The distances from the wells to the proposed property lines are not given. We need these distances to be shown.
