I think it would be a good idea to get her to weigh in on projects.

Holly,

Thanks. I will forward the info to her. Would you like me to start putting her email on my requests for comment on BLAs and combinations?

Thanks,

Dusty Pilkington

Dusty,

After talking with the applicant I understand that he has combined lots 34 through 38 into one lot and he has plans to build a home on lots 39 and 40. It appears that all setbacks will be met and the well is only intended to serve one residence. With that said, I see no problems with this application as far as the water is concerned. He will need to purchase water rights to build a home.

The only other thing that I recommend is that he have a site evaluation done to be sure that a septic system will fit and what type of system it will be. We should get Rebecca's comments on this to be sure.

Thank you,

Holly

Hopefully you can see my plan, but if I need to come up please let me know. The well is a llitle over 50 feet property lines of lot 35. Then I go out another 50 feet for septic tank setbacks. then an additional 50 feet for septic drain field setbacks. please feel free to call if you have questions. thanks Gil
