

Minutes of
Community Development Services
Study Session
August 18, 2003

Those Present: Perry Huston and Max Golladay

Also Present: David Taylor, Allison Kimball and Catherine Dunn

Fire Marshal's truck

The Board said to bring a list of the vehicles and the number of them that should have been replaced.

Copier

Perry Huston said that he would be willing to have one leased. He said that the Treasurer's office was currently leasing a machine.

Catherine Dunn said that she would talk with them and look into a lease.

Shorelines Hearings

David Taylor said that the hearing was a joke. He said that half of the people there were from agencies. He said that he would have a substantial list of comments for WA ST DOE.

Chad's Evaluation and PAF

David Taylor explained that Chad's evaluation was above average and that he deserved a 4% raise. He said that he has asked the Board to consider a promotion for him as part of the budget process.

Max Golladay said that this would speak to his promotion.

Watershed Plan

David Taylor asked what part of the plan would have to be implemented. He spoke with Rep. Holmquist about it. He would like to get the legislation to a point where the county is comfortable and then to put it before the Farm Bureau and the Cattlemen's association to see what they think. He also suggested getting it into bill form and then taking it to WSAC.

APPROVED

1/10/04¹

Perry Huston said he would like to delete Sections 4 & 5 entirely and go with the Section 3 change. Then, he said, they could get Rep. Holmquist to commit to dropping them and then go to WSAC.

Max Golladay said that Yakima-Tieton Irrigation District took it to Larry Marting to check the differences between 2514 and 1336.

Clay's letter to the Editor

David Taylor explained that Clay White had taken exception to an editorial taking the Board of Adjustment to task for having a meeting last until after 1:00 AM and not holding them in the upper county. He said that he had asked Clay to let him bring it before the Board before it went to the papers.

The Board agreed with the letter but asked for a couple of changes. They asked that he take out the personalization and put a disclaimer that he was not writing for the county. They then said to send it to the Daily Record and the Tribune.
