REGULAR MEETING

DEPARTMENT HEAD

ASSESSOR

Marsha Weyand, Assessor presented the Board with four views of DOE Map's that are a different percentage of zoom that the County could have on COMPAS. She explained the different color graphing and questioned if the Board would be supportive of this being on the County Web for the public to have access to. She explained the benefit of the public being able to see where there are approved mitigated parcels.

The Board questioned the source of the maps and indicated that if DOE is okay with the County adding these layers, they would see no problem with them being added. They indicated that they would like to see a disclaimer on the website noting protection of data and that it needs to be approved by the Prosecutor's Office as well. Once that is done and approved by the County Prosecutor, it is okay to go live.
