STATEMENT OF WORK

- 1. Purpose. There is evidence that trafficking in controlled substances exists and that such illegal activity has a substantial and detrimental effect on the health and general welfare of the people of the State of Washington. The purpose of this Agreement is to provide funding to local law enforcement agencies to support the locating and eradication of illicit cannabis plants, and the investigation and prosecution of cases involving controlled substances before state and federal courts in the State of Washington.
- 2. Statement of Work. The Public Agency, with its own law enforcement personnel and employees, shall perform activities supporting the locating and eradication of illicit cannabis plants, such as:
 - Gathering and reporting intelligence data relating to the illicit possession and distribution of marijuana, including information on individuals arrested, weapons seized, plants removed, location of gardens, and techniques used.
 - b. Investigating and charging individuals involved in the domestic production of marijuana. Investigations should seek to identify and charge criminal organizations involved in the illicit production of marijuana.
 - c. Providing, upon request, case-specific information to the Pacific Northwest High-Intensity Drug Trafficking Area (HIDTA) analyst designated by HIDTA to support marijuana investigations statewide. Case-specific information provided to this analyst will be handled in accordance with Western Information System Network (WSIN) policy. Whenever appropriate, the Public Agency will utilize HIDTA intelligence analysts; these analysts support the criminal investigation process by providing direct support as an investigation unfolds, conducting data analysis and research. The value of these services is also found in the technology HIDTA uses to produce analytical charts and graphs depicting all aspects of an investigation.
 - d. Providing law enforcement personnel staffing for illicit marijuana eradication within the State of Washington.
 - e. Arresting and bringing to prosecution defendants charged with the violation of controlled substances laws.
 - f. Submitting cultivation forms for each grow operation seized to the WSP research analyst.
 - g. Sending required samples of eradicated marijuana to the National Institute on Drug Abuse (NIDA) Marijuana Potency Monitoring Program, at the University of Mississippi.

3. Reporting Requirements.

a. <u>Financial</u>. The Public Agency shall submit monthly billing and reports to the WSP Project Manager identified on Page 1 of this Agreement. Monthly reports are due by the 15th of the following month. An example of the designated format for reporting is attached as Exhibit D to this Agreement. An electronic copy of the reporting forms will be provided by the WSP Project Manager; the forms include an excel workbook that has been designed to assist Public Agencies with reporting.

WSP shall not reimburse the Public Agency for any activity or associated cost that has not been identified in a Public Agency's monthly report. All reports and billings must be received by WSP no later than **October 31, 2013**, for all reimbursable activities during the period of performance for this Agreement.

- b. <u>Marijuana Cultivation Seizure Reports</u>. The Public Agency shall report to the WSP research analyst, Paige Groner-Himes (360-704-2397) at <u>Paige Groner-Himes@wsp.wa.gov</u>, all seizures utilizing the Marijuana Cultivation Seizure Report form (Exhibit B to this Agreement) for each garden seized <u>within 48 hours of the seizure</u>. GPS coordinates are desired for all grow locations <u>and are required for outdoor grow locations</u>. Indoor grow locations require physical addresses and, if available, GPS coordinates.
- c. <u>Cannabis Potency Monitoring Program Reports</u>. The Public Agency shall send required samples of eradicated marijuana to the National Institute on Drug Abuse (NIDA) Marijuana Potency Monitoring Program at the University of Mississippi. <u>Each recipient agency will submit a minimum of four samples utilizing the form and instructions attached as Exhibit C to this Agreement.</u> Potency monitoring is critical for monitoring the increasing potency of marijuana produced in the United States.

4. Allowable Costs.

- a. Agreement funds may be used to reimburse the Public Agency for the following without prior approval by WSP:
 - 1) Law enforcement officer(s) overtime salaries and benefits during the time they are engaged in activities directly supporting the program.
 - 2) Mileage, subsistence and lodging costs for law enforcement officers during the time they are engaged in the eradication process or attending associated training and planning meetings. All mileage, subsistence and lodging costs shall be reimbursed at current State of Washington travel reimbursement rates.
- b. Agreement funds may be used to reimburse the Public Agency for the following <u>if approved in</u> advance by the WSP Project Manager:
 - 1) Rental, leasing, maintenance and operation costs for equipment used directly for marijuana eradication. All aircraft used pursuant to this Agreement shall meet all applicable Federal Aviation Administration rules and regulations.
 - 2) Purchases of equipment used directly for marijuana eradication. The Public Agency shall request approval of the purchase in advance by WSP in a detailed letter or email to the WSP Project Manager identified on Page 1 of this Agreement. Details shall include type and quantity of equipment, the cost of equipment, requested reimbursement amount and how this equipment supports your marijuana eradication efforts. The authorization request letter or email to the Project Manager must be received by the WSP no later than <u>August 31, 2013</u>. The WSP shall return a letter or email to the Public Agency granting or denying authorization. The Public Agency must attach a copy of the equipment vendor's invoice and/or packing slip to its billing submitted to WSP for reimbursement of equipment costs.
- c. The Public Agency shall expend all Agreement funds no later than October 31, 2013.
- 5. Unallowable Costs. Reimbursement to the Public Agency under this Agreement is limited to those cost items identified in Section 4, Allowable Costs. Additionally, the use of Agreement funds is expressly prohibited for defraying the costs related to herbicidal eradication of marijuana without the written consent of WSP in advance.

The Public Agency understands and agrees that Federal funds will not be used to perform any of the following functions: (i) issuing licenses, permits, or other forms of authorization permitting the holder to manufacture, distribute, sell, or use marijuana in contravention of the CSA; (ii) conducting ancillary activities related to the issuance of such licenses and permits, such as background checks on applicants;

- (iii) collecting state or local tax or licensing revenue related to the manufacture, distribution, or sale of marijuana in contravention of the CSA; (iv) preparing or issuing regulations governing the manufacture, distribution, sale, or possession of marijuana in contravention of the CSA; or (v) monitoring compliance with state or local laws or regulations that permit the manufacture, distribution, sale, or use marijuana in contravention of the CSA. The result of expended funds (e.g. equipment, supplies and other resources) must be directly related to and must only be used for marijuana eradication activities.
- 6. Use of Funds by Other Law Enforcement Agencies. The Public Agency may elect to use Agreement funds to reimburse other law enforcement agencies for their marijuana eradication efforts. If Agreement funds are used in this fashion, the Public Agency remains responsible for ensuring all costs submitted for payment by other law enforcement agencies are allowable under this Agreement. The Public Agency must also report the activities of other law enforcement agencies reimbursed under this Agreement in the Public Agency's monthly report to WSP.
- 7. Reallocation of Funds. As expeditiously as possible, the Public Agency shall notify the WSP Project Manager if the Public Agency shall not be able to expend any portion of funds provided under this Agreement. Subject to the <u>Agreement Alterations and Amendments</u> section of this Agreement, WSP shall reallocate unexpended funds to other law enforcement agencies that have demonstrated a need for additional funding.
- **8. Hold Harmless.** In addition to the <u>Indemnification</u> section of this Agreement, the Public Agency shall hold the U. S. Drug Enforcement Administration, its agents and employees, and the United States Government harmless from any and all claims, demands, suits, liabilities and cases of action, or whatever kind and designation, and where-ever located in the State of Washington, resulting from activities funded through this Agreement.
- 9. Certifications. The Public Agency shall execute and return to WSP OJP Form 4061/6, Certifications Regarding Lobbying; Debarment, Suspension and Other Responsibility Matters; and Drug-Free Workplace Requirements. The Public Agency acknowledges that this Agreement shall not take effect and that no funds shall be reimbursed until the completed OJP Form 4061/6 is received by WSP.
- **10. Equipment Management.** The Public Agency shall comply with the property management requirements contained in the Financial Guide published by the Office of Justice Programs, U.S. Department of Justice, concerning the use, tracking/inventory, and disposition of any equipment purchased with Agreement funds.

CANNABIS POTENCY MONITORING PROGRAM REPORT DEFINITIONS

Already Harvested: Cannabis plant material recently dried or packaged. May be either bud or leaf.

Average Plant Canopy Diameter: Record the diameter of a typical mature cannabis plant at its broadest point through the center. Diameter data can be used to predict usable yield with good accuracy.

<u>Cannabis Bud</u>: Flowering top of a female cannabis plant. The bud may contain seeds. Most valuable portion of a cannabis plant to the illicit grower. Bud formation occurs late in plant development.

<u>Cultivated Ditchweed</u>: Male or female cannabis plant which grows wild in many states that has in some way been tended by man. Examples of tending are: weeding, watering, topping, fertilizing, and harvesting.

Cultivated Non Sinsemilla: Male or female cannabis plants commonly grown for illicit drug use.

<u>Cultivated Sinsemilla</u>: Female cannabis plant which has not been pollinated. May grow from cutting or from seed. May contain some seed (if unpollinated the seed will be sterile). Common illicit indoor grow technique.

<u>Ditchweed</u>: Unattended, wild male or female cannabis that is native to many states.

<u>Leaf</u>: Cannabis leaf potency tends to correlate to position on the plant. The most potent part of the plant is the new leaves at the top of the plant. As you move downward on the plant potency decreases. The least potent leaves on the plant are the large leaves at the bottom of the plant.

Mature Cannabis: Mature cannabis plants have a higher potency than immature plants. Determination of plant maturity should be made using all available contextual factors. For example, if the plant is outdoors and it's only June or July then the plant is likely immature. However, if the growing season is near an end, such as September or October, then the plant is probably mature. Note: male cannabis plants are mature as early as August when grown outdoors. It is more difficult to generalize regarding maturity of indoor grows. "Spike" cannabis plants can mature in as little as 6-8 weeks whereas an indoor grow with plants 3-4 feet in height may take 8-16 weeks to mature.

<u>Sample Selection</u>: Choose mature over immature plants. Choose female over male plants. Choose buds over upper plant leaves. Choose upper plant leaves over lower plant leaves, if no bud is available. Submit more than one sample per seizure if there are observably different groups of mature plants.
