

# Kittitas County Solid Waste

## Agenda Staff Report

**AGENDA DATE:**

5/18/2010

**ACTION REQUESTED:**

Request Boards approval for the chair to sign Change Order #1 with SCS Engineers for updating the Moderate Risk Waste portion of the solid waste management plan.

**BACKGROUND:**

The Solid Waste Department has been working with SCS Engineers updating the solid waste management plan. During this time the Department of Ecology adopted new guideline for Solid Waste planning.

Since our plan was not completed we feel it would be in the Counties best interest to meet the new guidelines at this time instead of coming back at a later date to make the modifications.

**INTERACTION:**

SCS Engineering, and the Prosecutors office.

**RECOMMENDATION:**

Recommend boards approval for the Chair to sign Change Order #1 with SCS Engineers.

**HANDLING:**

Return two signed copies to the Solid Waste Department.

**LEAD STAFF:**

Patti Johnson
