KITTITAS COUNTY
DEPARTMENT OF PUBLIC WORKS

AGENDA STAFF REPORT

AGENDA DATE REQUESTED: December 7, 2010

ACTION REQUESTED: To Sign A Resolution To Adopt Equipment Rental and Revolving Fund Equipment Rental Rates Effective January 1, 2011

☑ Routine ☐ Public Hearing

BACKGROUND: Equipment rental rates for the equipment owned by the E. R. and R. Fund shall be set according to RCW 36.33A.040. Equipment owned by the E. R. and R. Fund is categorized into classes of like type equipment. The county equipment rental rates are adopted primarily by the class of equipment. This helps to ensure that there is no preference in equipment usage based on a lower rental rate. Exceptions are made for those types of specialized equipment operating at a somewhat higher profit or loss within a class.

County rental rates are set to include operating costs including depreciation, labor, materials and supplies consumed in operating or maintaining the equipment. County rental rates also include a factor for the future replacement of the equipment. Other considerations in setting rates include the estimated annual usage as determined by the Maintenance Manager.

The federal equipment rental rate is set at the individual equipment level based on operating costs including depreciation, maintenance costs and estimated annual usage. Federal rental rates are prohibited from including a replacement factor. It is the department's policy to set the federal rental rate at the lesser of the calculated federal rental rate or the county rental rate. The federal equipment rental rate is typically used on all reimbursable projects for the federal government, projects funded through federal grants and federal disasters.

RECOMMENDATION: Public Works requests that the Board of County Commissioners approve and sign a resolution to Adopt Equipment Rental and Revolving Fund Equipment Rental Rates Effective January 1, 2011.
