

KITTITAS COUNTY DEPARTMENT OF PUBLIC WORKS

Kirk Holmes, Director

TO: Neil Caulkins, DPA
FROM: Douglas D'Hondt, County Engineer, Public Works
DATE: February 2, 2011
SUBJECT: Masterson Flood Claim

The claim was not specific as to the losses or location of claimed damage. Therefore, I cannot offer comment.

No record of a Kittitas County flood management system on the Teanaway River was found. The only known levees are found immediately upstream of SR 970 on the right bank and at the left bank located near the end of Quail Valley Road.

Kittitas County does not retain ownership of the levees and never have. Kittitas County worked with the US Army Corps of Engineers after the January 2009 flood event to reconstruct the one levee for protection of Quail Valley and Lambert Roads.
