Subscribed and sworn (affirmed) to before me this *10th* Day of *January*, 20 *11*.

Michael P. Mulligan
Michael P. Mulligan
Notary Public in and for the State of Washington

Residing at *Yakima, WA*

Answers to Questions 7, 8 and 15:

Claimants live along or near the Teanaway River in the vicinity of Washington State Highways 10 and 970, and Lambert Road and Quail Valley Road. These public highways and Kittitas County roads are protected from the Teanaway River by a series of levees and dikes designed, constructed, improved, maintained, and repaired by the State of Washington and Kittitas County, or their predecessors in interest. These river control measures diverted and altered the natural watercourse of the Teanaway River. During high water events, the system is designed to confine the river to its main channel, thereby reducing its flood conveyance capacity.

On or about January 7, 2009, a high water event in the Teanaway River caused the failure of certain levees and dikes. The river flowed out of its confined channel and onto and across Claimants' properties, causing significant damage.

The State and County agencies responsible for the Teanaway River knew or should have known of the insufficiencies of the flood control projects along the river and the dangers posed to Claimants' properties. Claimants were not told of the dangers, nor were their properties in designated floodplains or floodways.
