William – Please see attached letter from Ramsey, which explains the need for this amendment. The problem was we sent this letter a follow-ups to you only to find out we have been sending them to the wrong email address. For some reason, we never received a bounce-back to alert us that the email wasn't being delivered. I'm sorry for the inconvenience, but we do need this signed today to cover this fiscal year. I believe all counties have signed this third amendment. Thanks. John.
