New or Remodeled Food Service Establishment Checklist**

**Some items may not be required for limited food service establishments or beverage bars. Please consult our office for more information.

### Drinking Water Source

Connection to an existing approved public water system: Yes □ No □ N/A □

Name of public water system: ________________________________

Public water system I.D. number: ________________________________

Connecting to a well: Yes □ No □ N/A □

In order to use your own potable well, you must have the water system approved as a public water system from Kittitas County Public Health Department or the Washington State Department of Health. Please contact our office to determine the approval requirements. Your water system must be approved prior to operating the food service establishment.

### Sewage Disposal

Connected to public sewer: Yes □ No □ N/A □

If yes, name: ________________________________

Connecting to an on-site sewage system: Yes □ No □ N/A □

If your establishment is connecting to an on-site sewage system, a review of our records will be accomplished to ensure it was permitted and approved. Food Establishment sewage systems are required to be checked on an annual basis. The owner is required to supply the Kittitas County Public Health Department with a record of any maintenance or checks performed annually. A list of septic system pumpers is available at our office.

Grease trap installation: Yes □ No □ N/A □

Drain to sanitary sewer provided at dumpster pad: Yes □ No □ N/A □

### Sinks/Dishwashing

Three-compartment sink installed for washing, rinsing and sanitizing equipment and utensils that is large enough for complete immersion of equipment and utensils, except fixed and excessively large equipment: Yes □ No □ N/A □

Commercial food service dishwasher installed with indicating thermometers on machine: Yes □ No □ N/A □

Note: A dishwasher and a two-compartment sink may be substituted for the three-compartment sink noted above.
Hot and cold running water under pressure adequate in quantity and temperature provided to all required plumbing fixtures:  Yes □  No □  N/A □

Drain boards at dishwashing equipment drain by gravity installed for both clean and soiled tableware and equipment:  Yes □  No □  N/A □

If no, indicate provisions for air drying of cleaned items and placement of soiled items:

_____________________________________________________________________________________________________
___________________________________________________________________________
_____________________________________________________________________________________________________

One or two-compartment sink installed for food preparation:  Yes □  No □  N/A □

Note: This requirement can be waived only with severe menu restrictions.

Separate hand washing sink installed in food preparation area:  Yes □  No □  N/A □

Single-use hand towel dispenser and liquid soap, provided at kitchen hand washing sink:  Yes □  No □  N/A □
(The use of hand sanitizer or a bleach bucket is not a substitute for hand washing.)

Mop sink installed outside food preparation area:  Yes □  No □  N/A □

**Equipment**

Fountain syrup dispenser system isolated from water supply with a vented dual check valve or other approved backflow prevention device:  Yes □  No □  N/A □

Appropriate indicating thermometers provided for all hot and cold food service equipment, food storage and food transport units:  Yes □  No □  N/A □

Adequate equipment provided for all items used in conjunction with food service operation:  Yes □  No □  N/A □
(Enough refrigeration, freezer space, storage space, etc. to store and serve safe food)

Equipment and utensils for food service are in conformance with the current standards and listing of the National Sanitation Foundation (NSF):  Yes □  No □  N/A □

If equipment and utensils are not NSF approved, please explain:

_____________________________________________________________________________________________________
___________________________________________________________________________________________________
_____________________________________________________________________________________________________

Buffet and/or salad bar commercial quality construction, equipped with sneeze guards and capable of maintaining potentially hazardous foods at 140°F or above, or 41°F or below during service:  Yes □  No □  N/A □

Customer tableware disposable single service type:  Yes □  No □  N/A □
### Drains

</table>
Storage
Permeable food storage containers are kept off the floor and protected from contamination: Yes □ No □ N/A □

Exposed or unprotected sewer lines or other utility lines constructed in a manner that does not subject foods and containers of foods to contamination: Yes □ No □ N/A □

Separate area provided for cleaning equipment such as mops, brooms, chemicals etc.: Yes □ No □ N/A □
Location of these items: __________________________

Designated location for employee storage of personal belongings: Yes □ No □ N/A □
Location: __________________________

Adequate storage areas provided for all items used in conjunction with food service operation: Yes □ No □ N/A □

Adequate lighting provided throughout establishment. Yes □ No □ N/A □

Lights shielded from breakage in the food preparation, service, storage and display areas and where utensils and equipment are cleaned and stored: Yes □ No □ N/A □

Ventilation
Ventilation and mechanical ventilation equipment installed for facility, toilet rooms, and cooking equipment as required: Yes □ No □ N/A □

Filters or other grease-extracting equipment used in ventilation devices readily removable for cleaning and replacement, or designed to be cleaned in place: Yes □ No □ N/A □

Bar (Liquor Service)
Liquor bar constructed: Yes □ No □ N/A □
Four-compartment bar sink installed at bar: Yes □ No □ N/A □

Restrooms
Public Restrooms
Health Department regulations require public restrooms when customer seating is provided. Check with your local building official concerning additional regulations regarding public restrooms. Yes □ No □ N/A □

Employee Restrooms
Hand washing sink with liquid soap and hand towel(s) or heated air hand drying devices and toilet tissue dispenser provided in toilet room(s): Yes □ No □ N/A □

Hot (minimum temperature of 100°F) and cold running water provided through a mixing faucet: Yes □ No □ N/A □

Pest Control
Only pesticides approved for food establishments used: Yes □ No □ N/A □

All vents and openings to the outside greater than ¼ inch
covered with ¼ inch heavy wire mesh or screen used to exclude rats and other rodents: Yes □ No □ N/A □

Screens or other devices used to prevent flies and other pests from entering the food service establishment: Yes □ No □ N/A □

**Garbage Storage and Removal**

Durable, easily cleanable, leak-proof, covered garbage and refuse containers provided (outside storage area, kitchen and toilet rooms): Yes □ No □ N/A □

**Additional Requirement for Mobile Units**

Letter/lease giving permission for mobile operators to use restrooms, parking site and approved commercial kitchen: Yes □ No □ N/A □

Grey water tank is 15% larger than potable water tank and has a capacity of minimum 5 gallons: Yes □ No □ N/A □

Food grade hose for filling potable water tank: Yes □ No □ N/A □

**Floor Plan**

Attach a floor plan drawing, to scale (please provide scale), on a separate piece of paper showing the following:

- □ Name of the establishment,
- □ All fixed equipment including hand washing sinks, triple sinks, dishwashers, storage units, ventilation hoods, ice machines, etc. (please label all fixed equipment on the floor plan),
- □ Each room and separated area by name, such as food storage room, food preparation room, dining area, restroom, etc.,
- □ The size of each room and separated area by footage (length and width, not square feet), and
- □ Plumbing details including location of dumpster drain.

If this application is submitted before the completion of a restaurant remodel, or new construction, the plans must stay the same as in the attached drawing. If the floor plans in the food establishment change, a new drawing must be submitted to Kittitas County Public Health Department.
