

**Jeff & Valerie Calaway
Boundary Line Adjustment**

Proposal Description

The Jeff and Valerie Calaway desire to separate their land holdings along W. Dolarway Road.

This Boundary Line Adjustment will create two land uses.

- a single parcel, currently fences and used as pasture
- a separation of the new parcel from the parcels currently dedicated to the Calaway Trading Company's operations.

The Boundary Line Adjustment will create a single parcel not impacting the Calaway Trading Company operations. The new parcel then can be financed or sold separately from the hay exporting business.

Please note: The application identified three parcels impacted by the BLA proposal. There are only two, Parcels 166133 and 876133.
