Re: Project Name: 3 Boots Ranch (CU-23-00001)
Assessor Parcel No.: 214534

Dear Kelly:

We are appearing for a significant neighborhood group opposed to the conditional use permit application filed by Scott Toland for a proposed Agricultural Processing Facility. In reviewing the Kittitas County CDS website, we see that the applicant has revised its project proposal and is now contemplating a 10,000 square foot building together with an additional refrigerated unit that will house the containers of inedible parts of harvested animals. The record as it exists is sparse and provides little specific information on either the specific project proposal or the related environmental impacts associated with the proposed project.

It is my understanding that Kittitas County CDS will be requiring the resubmission of materials with respect to the modified proposal and that a new *Notice of Application* will be issued providing an opportunity for further comment by the public and agencies with respect to the land use proposal as well as environmental considerations.

Please accept this letter as my appearance in this matter and I would request to be placed on your mailing and contact list.

Thank you for your consideration.

Very truly yours,
MEYER, FLUEGGE & TENNEY, P.S.
