Re: 3 BR Custom Cuts (cc-23-00001)

This response in regards to the above project. I object to this project going forward for the below reasons.

1. This is a residential neighborhood
2. We need more information on its effect on ground water, traffic, air quality.
3. Would this permit allow them to increase their business as they wish?
4. What limitations and controls would be put on expansion?

Thank you
