I am writing to express my concern and objections to the proposed change of use being considered for Fowler Creek Guest Ranch.

This project is located in a quiet, rural location that is currently extremely under served by county infrastructure. There is no water or sewer available for basic sanitation needs much less fire suppression in an area rated (Red) for fire danger. In the event of a fire, the residents of Granite Creek will be cut off and have no way out, as Forest Service Road 4517 is a dead end.

The Fowler Creek Road, while county maintained was never intended to support the amount and type of traffic that is being proposed. Forest Service Road 4517 is in substandard condition as it is, being maintained by local residents, with much needed repairs far in the rears.

A project of this magnitude in this area will forever change the lives of everyone that lives nearby. Thank you for your consideration.
