RE: CU-23-00007 Cle Elum Transfer Station

Dear Jamey Ayling,

Public Health is commenting on the CU-23-00007 Cle Elum Transfer Station. Please note on the side of the new entrance there is a well that needs to have a protected 100 foot radius. The sanitary control area should be maintained free from potential contamination, including any roads, asphalt, concrete, or cement pads for waste containers or collection bins.

Kittitas County Public Health will also need to know if there are any changes to the Solid Waste Plan of Operations.

Please do not hesitate to contact us if you have any additional questions or concerns regarding septic or water setbacks.

Regards,

A handwritten signature in blue ink that reads "Melissa Schumaier".
