Ellensburg, Washington 98926

Re: Black Horse Final Plat Certification – Phase 2

To Whom It May Concern:

D R Horton has met the District Standards in its construction of the onsite private irrigation system for the plat of Black Horse at Whiskey Creek. The private irrigation system will not impede delivery of flows to any other customer served by Cascade Irrigation District (CID).

CID certifies that D R Horton has paid appropriate fees for the 135 lots within Division 2 of the plat of Black Horse at Whiskey Creek. Those lots are lot number 146 through 197, 217 through 229, 232 through 236, 257 through 261, 264 through 276, and 297 through 343.

CID provides this letter as its approval of the final plat of Black Horse at Whiskey Creek Division 2.

Sincerely,

Kelton Montgomery
Cascade Irrigation District Manager
