Good afternoon Jeremiah,

WDFW has reviewed the application materials and we appreciate the designation of Wilson Creek, the riparian management zone and the floodplain on the plat map. Wilson Creek is an important tributary to the Yakima River and it provides habitat for numerous species of native fish and wildlife. Technical and financial support is available to help landowners enhance the riparian habitat on their property and WDFW would be pleased to assist the landowners in this if they're interested.

Thank you for the opportunity to comment and please feel free to reach out with any questions or concerns.

Jen
