Office (509) 962-7506

Building Partnerships; Building Communities

### MITIGATED DETERMINATION OF NONSIGNIFICANCE

**File:** SEPA Checklist (SE-22-00015)  
Thorp Landing SEPA Application

**Description:** The applicant, Thorp Landing LLC, is proposing to construct a 3,950-foot long by 24-foot wide shared driveway to serve multiple new single family residences. The project requires a Grading Permit through Kittitas County Public Works with which this SEPA review is associated. The subject parcels are in Ag 20 zoning with a Rural Working land use designation.

**Proponent:** Thorp Landing, LLC  
c/o Aaron Greear  
1410 W Dolarway Rd; Ste 301  
Ellensburg, WA 98926

**Location:** Tax parcel numbers 443233, 19592, 19593, 19588, 19589, 19590 and 19591 located on Thorp Landing Lane, beginning at the intersection of Thorp Landing Lane and North Thorp Highway, in Section 11, Township 18, Range 17 E in Thorp, Kittitas County.

**Lead Agency:** Kittitas County Community Development Services

The lead agency for this proposal has determined that it will not have a probable significant adverse impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21C.030(2)(c) and WAC 197-11. This decision was made after review of a completed environmental checklist, site visit with state agencies and other information on file with the lead agency. This information is available to the public on request or can be viewed at the Kittitas County Community Development Services website at: <http://www.co.kittitas.wa.us/cds/land-use/default.aspx> under "Miscellaneous SEPA Applications" using the file number "SE-22-00015."

The lead agency has determined that certain mitigation measures are necessary in order to issue a Mitigated Determination of Non-Significance (MDNS) for this proposal. Failure to comply with mitigation measures identified hereafter will result in the issuance of a Determination of Significance (DS) for this project. The mitigation measures include the following:

#### Critical Areas

- 1) Any grading over 100 cubic yards of material requires a grading permit through Kittitas County Public Works. Any grading over 500 cubic yards of material will require engineered grading and storm water plans. See Kittitas County Code chapter 14.05. The applicant shall not grade until their grading permit is issued.
- 2) The applicant shall have a full Critical Areas Report conducted in the project area, including areas of critical area connectivity, pursuant to Kittitas County Code Title 17A.01.080. If County-regulated critical areas are identified, and development encroaches on the buffers, additional permitting and mitigation measures may be required. The report shall be submitted to Kittitas County CDS and include a mitigation plan for any regulated critical area encroachment.

- 3) The applicant shall work with Washington Department of Fish and Wildlife to determine if an HPA permit would be required. If an HPA permit is required, the applicant shall obtain one and comply with its conditions.

Cultural Resources

- 4) Should ground disturbing or other activities related to the grading and clearing result in the inadvertent discovery of cultural or archaeological materials, work shall be stopped in the immediate area and contact be made with the Washington State Department of Archaeology and Historic Preservation (DAHP). Work shall remain suspended until the find is assessed and appropriate consultation is conducted. Should human remains be inadvertently discovered, as dictated by Washington State RCW 27.44.055, work shall be immediately halted in the area and contact made with the coroner and local law enforcement in the most expeditious manner possible.
- 5) The applicant shall provide a post-cultural resource survey or otherwise satisfy cultural resource concerns, as directed by the Yakama Nation. Any survey shall be submitted to the Yakama Nation for review and approval. In the event that a survey results in the need for significant modification to the project as submitted, the applicant shall modify the project accordingly and submit such modification plans to Kittitas County CDS for approval prior to any ground disturbing activities.

This MDNS is issued under WAC 197-11-355; the lead agency will not act on this proposal for 10 working days. Any action to set aside, enjoin, review, or otherwise challenge this administrative SEPA action on the grounds of noncompliance with the provisions of Chapter 43.21 RCW, shall be commenced on or before **June 3, 2022 at 5 pm.**

Questions or Comments regarding this determination can be directed to Rachael Stevie, (509) 962-7637, [rachael.stevie.cd@co.kittitas.wa.us](mailto:rachael.stevie.cd@co.kittitas.wa.us).

**Responsible  
Official:**

Jeremy Johnston

**Title:** Kittitas County CDS Planning Official

**Address:** Kittitas County Community Development Services  
411 North Ruby St., Suite 2  
Ellensburg, WA 98926  
(509) 962-7506

**Date:** May 19, 2022

**Pursuant to Chapter 15A.07.010 KCC, this MDNS may be appealed by submitting specific factual objections in writing with a fee of \$1550.00 to the Kittitas County Community Development Services, 411 N Ruby St. Suite 2, Ellensburg WA 98926. Timely appeals must be received no later than 5:00pm, June 3, 2022. Aggrieved parties are encouraged to contact Community Development Services at (509) 962-7506 for more information on the appeal process.**

### NOTICE OF APPLICATION

**Notice of Application:** Thursday, April 14, 2022

**Application Received:** Friday, April 1, 2022

**Project Name (File Number):** Thorp Landing (SE-22-00015)

**Applicant:** Thorp Landing, LLC

**Authorized Agent:** Aaron Greear

**Location:** Tax parcel numbers 443233, 19592, 19593, 19588, 19589, 19590 and 19591 located on Thorp Landing Lane, beginning at the intersection of Thorp Landing Lane and North Thorp Highway, in Section 11, Township 18, Range 17 E in Thorp, Kittitas County.

**Proposal:** The applicant, Thorp Landing LLC, is proposing to construct a 3,950-foot long by 24-foot wide shared driveway to serve multiple new single family residences. The project requires a Grading Permit through Kittitas County Public Works with which this SEPA review is associated. The subject parcels are in Ag 20 zoning with a Rural Working land use designation.

**Materials Available for Review:** The complete SEPA Checklist and application file may be viewed at Kittitas County Community Development Services, 411 N. Ruby St. Suite 2, Ellensburg, WA 98926. The file can also be viewed online at <https://www.co.kittitas.wa.us/cds/land-use/default.aspx> navigating to “Miscellaneous SEPA,” then to the application number “SE-22-00015 Thorp Landing”.

**Written Comments** from the public may be submitted to the Kittitas County Community Development Services no later than **Friday April 29, 2022 at 5:00 p.m.**, after which a SEPA threshold determination will be issued pursuant to 43.21C RCW (State Environmental Policy Act). A Determination of Non-Significance is expected to be issued using the Optional DNS Process under WAC 197-11-355. This may be the only opportunity to comment on the environmental impacts of this proposal. A copy of this subsequent threshold determination will be available to the public upon request.

**Required Permits:** SEPA, Grading

**Designated Permit Coordinator (staff contact):** Rachael Stevie (509) 962-7637; email at [rachael.stevie.cd@co.kittitas.wa.us](mailto:rachael.stevie.cd@co.kittitas.wa.us).

CDS@CO.KITTTITAS.WA.US

Office (509) 962-7506

"Building Partnerships – Building Communities"

**RECEIVED**  
APR 01 2022

## SEPA ENVIRONMENTAL CHECKLIST

Kittitas County CDS

### **Purpose of checklist:**

Governmental agencies use this checklist to help determine whether the environmental impacts of your proposal are significant. This information is also helpful to determine if available avoidance, minimization or compensatory mitigation measures will address the probable significant impacts or if an environmental impact statement will be prepared to further analyze the proposal.

### **Instructions for applicants:**

This environmental checklist asks you to describe some basic information about your proposal. Please answer each question accurately and carefully, to the best of your knowledge. You may need to consult with an agency specialist or private consultant for some questions. You may use "not applicable" or "does not apply" only when you can explain why it does not apply and not when the answer is unknown. You may also attach or incorporate by reference additional studies reports. Complete and accurate answers to these questions often avoid delays with the SEPA process as well as later in the decision-making process.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

### **Instructions for Lead Agencies:**

Please adjust the format of this template as needed. Additional information may be necessary to evaluate the existing environment, all interrelated aspects of the proposal and an analysis of adverse impacts. The checklist is considered the first but not necessarily the only source of information needed to make an adequate threshold determination. Once a threshold determination is made, the lead agency is responsible for the completeness and accuracy of the checklist and other supporting documents.

### **Use of checklist for nonproject proposals:** [\[help\]](#)

For nonproject proposals (such as ordinances, regulations, plans and programs), complete the applicable parts of sections A and B plus the [SUPPLEMENTAL SHEET FOR NONPROJECT ACTIONS \(part D\)](#). Please completely answer all questions that apply and note that the words "project," "applicant," and "property or site" should be read as "proposal," "proponent," and "affected geographic area," respectively. The lead agency may exclude (for non-projects) questions in Part B - Environmental Elements –that do not contribute meaningfully to the analysis of the proposal.

### **APPLICATION FEES:**

\$600.00 Kittitas County Community Development Services (KCCDS)\*\*

\$950.00\* Kittitas County Department of Public Works\*\*

\$275.00 Kittitas County Public Health

**\$1,825.00 Total fees due for this application** (One check made payable to KCCDS)

\*2 hours of review included in Public Works Fee. Additional review hours will be billed at \$243 per hour.

\*\* Note:KCCDS and PW fees are waived if project is a VSP sponsored fish enhancement project.

FOR STAFF USE ONLY

Application Received by (CDS Staff Signature):  	DATE:  _____	RECEIPT#  _____	 <small>DATE STAMP IN BOX</small>
---	--------------------	-----------------------	---

**A. Background** [\[help\]](#)

1. Name of proposed project, if applicable: [\[help\]](#)

Thorp Landing Lane Shared Driveway

2. Name of applicant: [\[help\]](#)

Thorp Landing, LLC

3. Address and phone number of applicant and contact person: [\[help\]](#)

1410 W Dolarway Road, Ste 301, Ellensburg, WA 98926. Aaron Greear 509-929-3980

4. Date checklist prepared: [\[help\]](#)

3/31/2022

5. Agency requesting checklist: [\[help\]](#)

Kittitas County

6. Proposed timing or schedule (including phasing, if applicable): [\[help\]](#)

ASAP

7. Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? If yes, explain. [\[help\]](#)

Construction of single family residences & driveways

8. List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal. [\[help\]](#)

None known

9. Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain. [\[help\]](#)

Kittitas County grading permit, access permit

10. List any government approvals or permits that will be needed for your proposal, if known. [\[help\]](#)

Kittitas County Access Permit, Grading Permit, Building Permit, Onsite Septic, Well

11. Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.) [\[help\]](#)

Construction of approx. 3,950 foot long shared driveway. Strip sod, install base course, top course, asphalt surface.

12. Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist. [\[help\]](#)

Thorp Landing Lane, sec. 11, twn 18, range 17 east

## B. ENVIRONMENTAL ELEMENTS [\[help\]](#)

### 1. Earth [\[help\]](#)

a. General description of the site: [\[help\]](#)

(circle one)  Flat rolling, hilly, steep slopes, mountainous, other \_\_\_\_\_

b. What is the steepest slope on the site (approximate percent slope)? [\[help\]](#)

2%

c. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any agricultural land of long-term commercial significance and whether the proposal results in removing any of these soils.

[\[help\]](#)

Sandy loam/round gravel

d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe. [\[help\]](#)

No

e. Describe the purpose, type, total area, and approximate quantities and total affected area of any filling, excavation, and grading proposed. Indicate source of fill. [\[help\]](#)

Driveway is approx 24' wide and 3,950 feet long consisting of 12" base rock, 3" top course rock and 3" asphalt. Base rock will be excavated from site for road construction.

f. Could erosion occur as a result of clearing, construction, or use? If so, generally describe. [\[help\]](#)  
Not likely. Site topography and local weather make erosion highly unlikely.

g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)? [\[help\]](#)

Less than 3%

h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any: [\[help\]](#)

None needed

### 2. Air [\[help\]](#)

a. What types of emissions to the air would result from the proposal during construction, operation, and maintenance when the project is completed? If any, generally describe and give approximate quantities if known. [\[help\]](#)

Normal emissions of equipment during construction. Vehicle emissions once project is complete.

- b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe. [\[help\]](#)

Not known.

- c. Proposed measures to reduce or control emissions or other impacts to air, if any: [\[help\]](#)

None.

### 3. Water [\[help\]](#)

#### a. Surface Water:

- 1) Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into. [\[help\]](#)

No

- 2) Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans. [\[help\]](#)

No

- 3) Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material. [\[help\]](#)

Not applicable.

- 4) Will the proposal require surface water withdrawals or diversions? Give general description, purpose, and approximate quantities if known. [\[help\]](#)

No

- 5) Does the proposal lie within a 100-year floodplain? If so, note location on the site plan. [\[help\]](#)

No

- 6) Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge. [\[help\]](#)

No

#### b. Ground Water:

- 1) Will groundwater be withdrawn from a well for drinking water or other purposes? If so, give a general description of the well, proposed uses and approximate quantities withdrawn from the well. Will water be discharged to groundwater? Give general description, purpose, and approximate quantities if known. [\[help\]](#)

Yes, well onsite for domestic use. Less than 275 gal/day per home

- 2) Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, containing the following chemicals. . . ; agricultural; etc.). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve. [\[help\]](#)

#### Domestic on site septic systems

c. Water runoff (including stormwater):

- 1) Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe. [\[help\]](#)

Driveway runoff will be retained onsite. Site water will not flow into other waters.

- 2) Could waste materials enter ground or surface waters? If so, generally describe. [\[help\]](#)

No

- 3) Does the proposal alter or otherwise affect drainage patterns in the vicinity of the site? If so, describe. [\[help\]](#)

No.

- d. Proposed measures to reduce or control surface, ground, and runoff water, and drainage pattern impacts, if any: [\[help\]](#)

#### Detention & filtration swales

#### 4. Plants [\[help\]](#)

- a. Check the types of vegetation found on the site: [\[help\]](#)

deciduous tree: alder, maple, aspen, other

evergreen tree: fir, cedar, pine, other

shrubs

grass

pasture

crop or grain

Orchards, vineyards or other permanent crops.

wet soil plants: cattail, buttercup, bullrush, skunk cabbage, other

water plants: water lily, eelgrass, milfoil, other

other types of vegetation

- b. What kind and amount of vegetation will be removed or altered? [\[help\]](#)

Grass sod

- c. List threatened and endangered species known to be on or near the site. [\[help\]](#)

None known.

- d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any: [\[help\]](#)

None

- e. List all noxious weeds and invasive species known to be on or near the site. [\[help\]](#)

All varieties common to the Kittitas Valley

## 5. Animals [\[help\]](#)

- a. List any birds and other animals which have been observed on or near the site or are known to be on or near the site. [\[help\]](#)

Examples include:

birds: hawk, heron, eagle, songbirds, other:  
mammals: deer, bear, elk, beaver, other:  
fish: bass, salmon, trout, herring, shellfish, other \_\_\_\_\_

- b. List any threatened and endangered species known to be on or near the site. [\[help\]](#)

None

- c. Is the site part of a migration route? If so, explain. [\[help\]](#)

Unknown

- d. Proposed measures to preserve or enhance wildlife, if any: [\[help\]](#)

None

- e. List any invasive animal species known to be on or near the site. [\[help\]](#)

None known.

## 6. Energy and Natural Resources [\[help\]](#)

- a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc. [\[help\]](#)

None

- b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe. [\[help\]](#)

No

- c. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any: [\[help\]](#)

None

## 7. Environmental Health [\[help\]](#)

- a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste, that could occur as a result of this proposal? If so, describe. [\[help\]](#)

None known.

- 1) Describe any known or possible contamination at the site from present or past uses. [\[help\]](#)

None known.

- 2) Describe existing hazardous chemicals/conditions that might affect project development and design. This includes underground hazardous liquid and gas transmission pipelines located within the project area and in the vicinity. [\[help\]](#)

None

- 3) Describe any toxic or hazardous chemicals that might be stored, used, or produced during the project's development or construction, or at any time during the operating life of the project. [\[help\]](#)

None

- 4) Describe special emergency services that might be required. [\[help\]](#)

None.

- 5) Proposed measures to reduce or control environmental health hazards, if any: [\[help\]](#)

None.

- b. Noise [\[help\]](#)

- 1) What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)? [\[help\]](#)

Normal noise during construction.

- 2) What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site. [\[help\]](#)

Construction will be limited to normal working hours.

- 3) Proposed measures to reduce or control noise impacts, if any: [\[help\]](#)

Noise will not be generated during Kittitas County quiet hours.

## 8. Land and Shoreline Use [\[help\]](#)

- a. What is the current use of the site and adjacent properties? Will the proposal affect current land uses on nearby or adjacent properties? If so, describe. [\[help\]](#)

Agriculture. No.

- b. Has the project site been used as working farmlands or working forest lands? If so, describe. How much agricultural or forest land of long-term commercial significance will be converted to other uses as a result of the proposal, if any? If resource lands have not been designated, how many acres in farmland or forest land tax status will be converted to nonfarm or nonforest use? [\[help\]](#)

Yes, less than 24%, 18 of 75 acres

1) Will the proposal affect or be affected by surrounding working farm or forest land normal business operations, such as oversize equipment access, the application of pesticides, tilling, and harvesting? If so, how: [\[help\]](#)

No

c. Describe any structures on the site. [\[help\]](#)

None.

d. Will any structures be demolished? If so, what? [\[help\]](#)

No

e. What is the current zoning classification of the site? [\[help\]](#)

Agriculture

f. What is the current comprehensive plan designation of the site? [\[help\]](#)

~~Agriculture~~ Rural Working

g. If applicable, what is the current shoreline master program designation of the site? [\[help\]](#)

Not Applicable

h. Has any part of the site been classified as a critical area by the city or county? If so, specify. [\[help\]](#)

No

i. Approximately how many people would reside or work in the completed project? [\[help\]](#)

20 people

j. Approximately how many people would the completed project displace? [\[help\]](#)

0 people

k. Proposed measures to avoid or reduce displacement impacts, if any: [\[help\]](#)

None.

l. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any: [\[help\]](#)

None.

m. Proposed measures to reduce or control impacts to agricultural and forest lands of long-term commercial significance, if any: [\[help\]](#)

None.

## 9. Housing [\[help\]](#)

a. Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing. [\[help\]](#)

8. Medium

b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing. [\[help\]](#)

0

c. Proposed measures to reduce or control housing impacts, if any: [\[help\]](#)

None.

## 10. Aesthetics [\[help\]](#)

a. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed? [\[help\]](#)

40 Feet

b. What views in the immediate vicinity would be altered or obstructed? [\[help\]](#)

None known.

c. Proposed measures to reduce or control aesthetic impacts, if any: [\[help\]](#)

None.

## 11. Light and Glare [\[help\]](#)

a. What type of light or glare will the proposal produce? What time of day would it mainly occur? [\[help\]](#)

None.

b. Could light or glare from the finished project be a safety hazard or interfere with views? [\[help\]](#)

None.

c. What existing off-site sources of light or glare may affect your proposal? [\[help\]](#)

Unkown

d. Proposed measures to reduce or control light and glare impacts, if any: [\[help\]](#)

None.

## 12. Recreation [\[help\]](#)

a. What designated and informal recreational opportunities are in the immediate vicinity? [\[help\]](#)

None.

- b. Would the proposed project displace any existing recreational uses? If so, describe. [\[help\]](#)

No

- c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any: [\[help\]](#)

None.

### 13. Historic and cultural preservation [\[help\]](#)

- a. Are there any buildings, structures, or sites, located on or near the site that are over 45 years old listed in or eligible for listing in national, state, or local preservation registers? If so, specifically describe.

[\[help\]](#)

No

- b. Are there any landmarks, features, or other evidence of Indian or historic use or occupation? This may include human burials or old cemeteries. Are there any material evidence, artifacts, or areas of cultural importance on or near the site? Please list any professional studies conducted at the site to identify such resources. [\[help\]](#)

No

- c. Describe the methods used to assess the potential impacts to cultural and historic resources on or near the project site. Examples include consultation with tribes and the department of archeology and historic preservation, archaeological surveys, historic maps, GIS data, etc. [\[help\]](#)

None.

- d. Proposed measures to avoid, minimize, or compensate for loss, changes to, and disturbance to resources. Please include plans for the above and any permits that may be required. [\[help\]](#)

If artifacts are found, all work must cease until archaeologist or other specialist can examine the site to determine mitigation, per federal and state laws.

### 14. Transportation [\[help\]](#)

- a. Identify public streets and highways serving the site or affected geographic area and describe proposed access to the existing street system. Show on site plans, if any. [\[help\]](#)

Thorp Hwy.

- b. Is the site or affected geographic area currently served by public transit? If so, generally describe. If not, what is the approximate distance to the nearest transit stop? [\[help\]](#)

No

- c. How many additional parking spaces would the completed project or non-project proposal have? How many would the project or proposal eliminate? [\[help\]](#)

0

- d. Will the proposal require any new or improvements to existing roads, streets, pedestrian, bicycle or state transportation facilities, not including driveways? If so, generally describe (indicate whether public or private). [\[help\]](#) \_\_\_\_\_

No

e. Will the project or proposal use (or occur in the immediate vicinity of) water, rail, or air transportation? If so, generally describe. [\[help\]](#)

No

f. How many vehicular trips per day would be generated by the completed project or proposal? If known, indicate when peak volumes would occur and what percentage of the volume would be trucks (such as commercial and nonpassenger vehicles). What data or transportation models were used to make these estimates? [\[help\]](#)

20

g. Will the proposal interfere with, affect or be affected by the movement of agricultural and forest products on roads or streets in the area? If so, generally describe. [\[help\]](#)

No

h. Proposed measures to reduce or control transportation impacts, if any: [\[help\]](#)

None.

**15. Public Services** [\[help\]](#)

a. Would the project result in an increased need for public services (for example: fire protection, police protection, public transit, health care, schools, other)? If so, generally describe. [\[help\]](#)

No

b. Proposed measures to reduce or control direct impacts on public services, if any. [\[help\]](#)

None.

**16. Utilities** [\[help\]](#)

a. Circle utilities currently available at the site: [\[help\]](#)

electricity, natural gas, water, refuse service, telephone, sanitary sewer, septic system.

other

Communicaiton

b. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed. [\[help\]](#)

Utilities are provided by PSE. On site trenching as required.

**C. Signature** [\[help\]](#)

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.

Signature: *Aaron Greear*

Date Submitted: 3/31/2022

## D. supplemental sheet for nonproject actions [\[help\]](#)

(IT IS NOT NECESSARY to use this sheet for project actions)

Because these questions are very general, it may be helpful to read them in conjunction with the list of the elements of the environment.

When answering these questions, be aware of the extent the proposal, or the types of activities likely to result from the proposal, would affect the item at a greater intensity or at a faster rate than if the proposal were not implemented. Respond briefly and in general terms.

1. How would the proposal be likely to increase discharge to water; emissions to air; production, storage, or release of toxic or hazardous substances; or production of noise?

Proposed measures to avoid or reduce such increases are:

2. How would the proposal be likely to affect plants, animals, fish, or marine life?

Proposed measures to protect or conserve plants, animals, fish, or marine life are:

3. How would the proposal be likely to deplete energy or natural resources?

Proposed measures to protect or conserve energy and natural resources are:

4. How would the proposal be likely to use or affect environmentally sensitive areas or areas designated (or eligible or under study) for governmental protection; such as parks, wilderness, wild and scenic rivers, threatened or endangered species habitat, historic or cultural sites, wetlands, floodplains, or prime farmlands?

Proposed measures to protect such resources or to avoid or reduce impacts are:

5. How would the proposal be likely to affect land and shoreline use, including whether it would allow or encourage land or shoreline uses incompatible with existing plans?

Proposed measures to avoid or reduce shoreline and land use impacts are:

6. How would the proposal be likely to increase demands on transportation or public services and utilities?

Proposed measures to reduce or respond to such demand(s) are:

7. Identify, if possible, whether the proposal may conflict with local, state, or federal laws or requirements for the protection of the environment.
