Dear Chace,

The following comments are the Environmental Public Health comments on the LP-24-00002 Nelson View – Notice of Application.

The applicant is proposing to share a well between proposed lots 1 and 2, and proposed lots 3 and 4. Since the well driller could not access the property last fall, the wells were to be drilled this spring. Public health needs the well logs for those two wells prior to final plat signature. Everything else required has been completed and submitted.

Thank you for this opportunity to comment. If you have any questions, please don't hesitate to give me a call.

Sincerely,

A handwritten signature in black ink that reads "Holly Erdman".
