Re: Marlatt Reasonable Use Application (RU-22-00004)
Applicant Response to Agency Comments

Dear Mr. Cromie,

Below please find the Marlatts' responses to the agency comments for this application.

Snoqualmie Tribe
No response.

Washington Department of Fish & Wildlife

To my knowledge, no agency has verified the non-classification of the stream. The Marlatts are glad to accommodate a site visit by WDWF, and I will follow up with Scott Downes on their behalf.

Fire Marshal

The Marlatts' application does not propose construction of any new structures on the property.

Building Department

No response.

Code Enforcement

The Marlatts purchased this property with the understanding that it had a properly permitted cabin, and so the references to the structure as a "cabin" is because what they've always called it. (It's hard to call it a "shed" with the large entertaining deck attached to it.) Just to confirm, the entire purpose of this application is to *undo* the elements that make the structure even potentially habitable. The 175sf structure has only been—and in the future will only be—used for storage.

Public Works

There will not be any new driveway access, or any alteration to the existing driveway.

Public Health

No response.

Respectfully,

Amy Blue, Attorney
Good Faith Legal, P.S.
