Bradley,

I am writing to provide the following comment on the application referenced in the subject line:

PSE would like to note that in addition to planning for the development of a driveway in the easement area described/depicted in this application, the applicant – should they wish to connect to PSE’s system to the south of the property – must also plan for utility service lines to be accommodated in a format that can be permitted (overhead and alongside the driveway or underground).

Thank you for your time.

Best,

Dylan Marcus (He/Him)
