

Rezone

Question 11.E. The subject property is suitable for development in general conformance with zoning standards for the proposed zone.

Chapter 17.30

R-R – RURAL RECREATION ZONE

17.30.010 Purpose and intent.

The purpose and intent of the Rural - Recreation zone is to provide areas where residential development may occur on a low-density basis or in residential clusters. A primary goal and intent in siting R-R zones will be to promote rural recreation residential development associated with the many natural amenities found within Kittitas County.

As pointed out throughout this proposal the uses that are surrounding the subject parcels are consistent with this proposed land use and zone change by being recreational is nature compared to the existing zoning of Forest & Range. In comparison the intent of the forest & range zone is where natural resource management is the highest priority and the development of lands for uses and activities incompatible with resource management are discouraged. With respect to the uses allowed (permitted & conditional uses) within the existing zone and compared to the proposed zone of Rural Recreational there are some extremely intense uses that do not appropriately fit this recreational area (See Exhibit 9).

Within the Forest & Range-20 zone (KCC 17.56), the current zoning of this proposal, there are certain uses such as, Agricultural enhance uses, Agricultural direct marketing activities, Agricultural seasonal harvest festivities use, Agricultural expanded seasonal harvest festivities, Taverns, Asphalt/Concrete Plants, mini-warehouse, refuse & recycle centers, boarding house, Mining & excavation, & Rock Crushing uses, that are allowed within this zone. This land does not lend itself to the agricultural uses within with the Forest & Range zone. This land is mainly timber land along with natural amenities. Most importantly, The Forest & Range zone allows for one of the most intensive uses in Kittitas County, with the use being mining and rock crushing. These two types of uses do not fit within this land or for that matter the surrounding recreational lands. These types of uses should not be allowed within a recreational area of Snoqualmie pass and if allowed could be a detriment to the recreational vitality of the area.

The surrounding land, the surrounding uses of the property, the changing uses of the land to more of a rural recreational area, the available of water & sewer through the Snoqualmie Pass Utility (water & sewer) District water only shows that the property is suitable for development in general conformance with zoning standards of the Rural Recreational zone.
