Thank you for the recent letter dated September 21st, 2022. Please note that this letter is in regards to the Mardee Lake application but it references Thorp Landing Rezone and Comp plan amendment within the actual letter.
This should be clarified.

Good afternoon,

Attached please find the amended Transmittal of Comments letter. Chad – As mentioned in conversation, an amendment has been made noting that a critical areas report will not be required due to the application being non-project specific.

Please let me know if there are any follow up questions.

Thank you,

Good afternoon again,

It appears there were a couple of comments that did not make it into the transmittal. I have amended the letter as well as the combined comments to include both the original DNR comments from Shane Early as well as the comments from The Snoqualmie Tribes.

Please let me know if there are any questions. All documents have been uploaded to the website as well.

Thank you,

Kelly Bacon
