RE: SPF-21-00001 Riste

Thank you for the opportunity to comment on the above-mentioned project regarding water and septic requirements to comply with Kittitas County Public Health Department's Water Resources and Environmental Health requirements.

| Findings |
|-----------------|

On Site Sewage

Finding 1

Any On-Site Septic systems that are to be utilized for wastewater management must adhere to the standards set by both the Washington Administrative Code, and Kittitas County Code.

Water

Finding 1

The proposed plat is for parcels A and B, both of which already have existing homes on them so soil logs are not required. The current owner, Shirley Riste has drilled a new well on the proposed parcel A to serve the existing house on that parcel. Parcels A and B were sharing the well that exists on parcel B. Well logs have been received so no further information is needed for final approval.
