Good afternoon Bradley, Jamey, Jennifar and Joy

I am attaching the Critical Area Report for parcel # 761133 done by Sewall Wetland Consulting , Inc. , dated 11-15-21. As the report indicates there are no wetlands on this parcel. Also irrigation from CID will be via a pressurized system. There is an existing CID 10" irrigation line running north to south on the west boundary of the parcel, and an existing 8" irrigation line north to south on the east boundary of the property.

Thanks for your help.
