Hello Zach,

This consult is in reference to SP-24-00006 Hull. This undertaking involves no ground disturbance but is a plat division for expected future development i.e. ground disturbing activities.

This undertaking is located within the CCT Traditional Territories. We request any undertakings, particularly those involving ground disturbing activities, to have an IDP in place prior to implementation.

The proposed project lies within the traditional territory of the Wenatchi Tribe, 1 of the 12 constituent tribes of the Confederated Tribes of the Colville Reservation (CTCR), which is governed by the Colville Business Council (CBC). The CBC has delegated to the Tribal Historic Preservation Officer (THPO) the responsibility of representing the CTCR with regard to cultural resources management issues throughout the traditional territories of all of the constituent tribes under Resolution 1996-29. This area includes parts of eastern Washington, northeastern Oregon, the Palus territory in Idaho, and south-central British Columbia.

There are known cultural resources of precontact and historic significance nearby and this particular plat is considered Low to High Risk for an inadvertent discovery according to the DAHP predictive model. The only portions of this parcel that had been previously surveyed were done so in 2016 and only covered the road to the east.

CCT requests a cultural resource survey prior to the implementation of ground disturbing activities and that during implementation that there be an inadvertent discovery plan or (IDP) in place to ensure compliance with all Section 106 and relevant cultural resource laws both federally and to the state of Washington.

Thank you for consulting with the Colville Confederated Tribes History and Archaeology Program.

On behalf of Guy Moura, Tribal Historic Preservation Officer.

Sincerely,

Connor Armi | Archaeologist Senior MA, RPA
