

## KITTITAS COUNTY DEPARTMENT OF PUBLIC WORKS

## MEMORANDUM

TO: All Staff

FROM: Public Works Plan Review Team

DATE: May 16, 2024 SUBJECT: SP-24-00006 Hull

ACCESS	<ol> <li>An approved access permit shall be required from the Kittitas County Department of Public Works prior to creating any new driveway access</li> </ol>
	or altering an existing access.
	2. Maintenance of driveway approaches shall be the responsibility of the
	owner whose property they serve. The County will not maintain accesses.
	3. Any further subdivision or lots to be served by proposed access may
	result in further access requirements. See Kittitas County Road Standards.
	4. An updated KRD Crossing License is required.
	5. In addition to the above-mentioned conditions, all applicable Kittitas
	County Road Standards apply to this proposal. Access is not guaranteed
	to any existing or created parcel on this application. (JS)
	OF NOTE: Can you verify if there is a second house (822 Bare Road) on this parcel.
ENGINEERING	Except as exempted in KCC 14.05.060, no grading or filling upon a site involving more than one hundred (100) cubic yards shall be performed without a grading permit from the County Engineer or Public Works
	designee (KCC 14.05.050). An application for grading in excess of five
	hundred (500) cubic yards shall be accompanied by an engineered
	grading plan (KCC 14.05.080).
	2. Per KCC 12.04.06.040(S) a bridge permit may be required prior to
	occupancy of any new structures. Please reach out to Public Works for
	more information on these requirements. (CC)
SURVEY	No changes required as part of the Prelim Short Plat review.
	The Final will need to address (not a complete list):
	<ol> <li>Property corners to be shown and set,</li> </ol>

bearing and distance (a detail window may be beneficial)  3. Identify and delineate the location of end of county R/W for Bare Road per agreement between KRD and Kittitas County 5/08/2023.  TRANSPORTATION CONCURRENCY  FLOOD  Parcel #855636 is not located in the FEMA mapped special flood hazard area (100-year floodplain). A floodplain development permit is not required for the proposed project. (SC)  WATER MITIGATION/ METERING  The following comments outline the requirements for legal availability of wate and metering for the proposed short plat:  The applicant must provide legal water availability for all new uses on the proposed lots of this project, which can be provided through mitigation certificates. Prior to final plat approval and recording, the following conditions shall be met:  In accordance with KCC Chapter 13.35.027, the applicant shall provide one of the following documents before final plat approval:  1. A letter from a water purveyor stating that the purveyor has adequate water rights and will provide the necessary water for the new use;  2. An adequate water right for the proposed new use; or  3. A certificate of water budget neutrality from the Department of Ecology of other adequate interest in water rights from a water bank.  All applicants for land divisions shall also submit information on "proximate parcels" held in "common ownership" as those terms are defined in WAC 173-539A-030 and otherwise demonstrate how the proposed new use will not violate RCW 90.44.050 as currently existing or hereafter amended.  Failure to obtain mitigation before commencement of an activity requiring mitigation shall be a code violation subject to enforcement under Title 18 KCC.  Final Plat Notes  The following notes shall be placed on the face of the plat:  C-1 "Metering is required for all new uses of domestic water for residential		
Parcel #855636 is not located in the FEMA mapped special flood hazard area (100-year floodplain). A floodplain development permit is not required for the proposed project.
