Subject: SEPA Application Responses

CAUTION: This email originated from outside the Kittitas County network. Do not click links, open attachments, fulfill requests, or follow guidance unless you recognize the sender and have verified the content is safe.

Dear Bradley,

Pursuant to Mr. Armi's comments on my SEPA Application, "This will mark the third consultation that I have provided for this ground disturbing activity."

As I stated in my last response to you, there will be no **ground disturbing activity** that would destroy any archeological or historic resources. Gravel **only** will be placed on top of pasture land. There will be no vegetation clearing/removal to accommodate the driveway.

The state's definition of ground disturbing activity include:
Excavation, trenching, drilling, and blasting.

The cultivation of the soil for **agricultural purposes** and other similar activities are not ground disturbance activities.

Sincerely,
Linda
