5. Community Development Services finds that the following conditions are required for approval of the Accessory Dwelling Unit (ADU):
 - a. ADU's shall be subject to obtaining an Administrative Use Permit in areas outside of Urban Growth Areas.

 - i. An ADU is not permitted on the same lot where a "Special Care Dwelling" or an "Accessory Living Quarter" exists, as defined by Kittitas County Code.
 - j. The ADU shall be required to connect to the existing well serving the primary residence.
 - k. Access to the ADU shall be from the existing driveway at 17880 Vantage Highway. See attached memo from the Kittitas County Department of Public Works.

The Young's are approved and finalized for a 4 bedroom residence on their current septic. Any New residence would require a additional septic system. Or a large modification to the current system. The Tanks of the current system are adequate for a 6 bedroom, but the drainfield is only sized for a 4-bedroom.

You can approve the ADU without septic, they won't get a building permit until the septic issue is resolved.

Please let me know if they want to contact me.

Dear Ms. Braniff:

Thank you for the opportunity to comment on the notice of application for the construction of an accessory dwelling unit, proposed by Debbie and David Young [AU-08-00016]. We have reviewed the application and have the following comment.

Water Resources

Information for the applicant:

If you plan to use water for dust suppression at your site, be sure that you have a legal right. A water right permit is required for *all* surface water diversions and for any water from a well that will exceed 5,000 gallons per day. (Chapter 90.03 RCW Surface Water Code and Chapter 90.44 RCW Regulation of Public Ground Waters) If in doubt, check with the Department of Ecology, Water Resources Program. Temporary permits may be obtainable in a short time-period. The concern of Water Resources is for existing water rights. In some instances water may need to be obtained from a different area and hauled in or from an existing water right holder.

If you have any questions concerning the Water Resources comments, please contact Breean Zimmerman at (509) 454-7647.

- The total acreage and number of lots included within the subdivision shall be indicated on the face of the plat.

Other

- Review Final Plat Requirements Checklist to determine other requirements/conditions
- Wellhead protection areas (17A.08.020). ALL non-community wells must be placed a minimum of 50 feet from property lines.
- Right to Farm Ordinance applies to ALL permits on or within 1000' of land zoned Ag-3, Ag-20, Commercial Agriculture, or Forest and Range
- AIRPORT OVERLAY ZONE** Subdivision. When any division of land including short plats, plats, cluster subdivision, and planned unit developments, occur on any land within the airport overlay zoning district safety zones 1 through 6, a note located on the first page of the plat, shall be recorded with the county auditor as follows:
This property is located within the Airport Overlay Zoning District in which a variety of airport aviation activities occur. Such airport aviation activities may impact the use of your property.
- Does the parcel contain lands less than 3 acres? If so, include memo from Environmental Health regarding that current lot configurations are not guaranteed until septic and water approvals.
- By Kittitas County Ordinance, only sprinkler or drip irrigation is allowed for lots 3 acres or less in size.
- For Short Plats and Plats containing BPA easements, start requiring this plat note:**
Plat note: "Bonneville Power Administration (BPA) imposes certain conditions on the use of properties encumbered by high voltage transmission line right-of-ways. There can be no structures built on BPA right-of-ways. Proposed uses of the right-of-way must be reviewed, approved and permitted by BPA prior to installation. BPA Real Estate Field Services can be contacted at 1-800-836-6619."

The BPA layers are on the Critical Area, remember they have around a 100' – 200' easement around these wires. We will hopefully get this easement layer soon, but for now we have the line locations. When BPA lines are identified in proximity to a proposed structure, a note on the critical area should inform the applicant and should include the phone number of the BPA real estate service member (Michelle Doiron, Realty Specialist 1800-836-6619). There is an application they have fill out for any work within a BPA easement they can get from her. So we won't hold up critical areas for this, but should make sure applicants are aware of the BPA issues on the property by putting clearly in the "note section" or any other way you can think of making sure applicants are aware of the possible easement issue.

NOTES:

- Review Final Plat Requirements Checklist to determine other requirements/conditions
