Jeff – KVFR has the following input:

1. The accessory dwelling unit will need to be individually addressed and clearly marked from the public road access as well along any private access roads or driveways.
2. It is strongly suggested that the structure be built to WUI code standards and that the property owner be made aware that response times are estimated to exceed 12 minutes from time of call.
3. Access will need to comply with 2009 IFC – Appendix D.
4. Water supply for suppression may be limited.

Thank you
