Jeff

After reviewing the updated site plan and plat map, please continue processing this application as is. I have field verified the sporadic septic system and reserve area, and it does meet setbacks from new property lines.

Thanks

Jeff,

In reviewing this application I have some question as to where the existing drainfield is in relationship to the proposed lot line. I pulled up an as built that shows the two, 30 foot drain field lines being located between the house and the shed somewhere and need to verify that the setback from the property line to the drain field lines is met.

Thank you,

Holly Duncan
