

KITTITAS COUNTY

DEPARTMENT OF PUBLIC WORKS

MEMORANDUM

TO: Jeff Watson, Community Development Services
FROM: Christina Wollman, Planner II *CW*
DATE: December 12, 2013
SUBJECT: Buress BL-13-00028

The Public Works Department has reviewed the Request for Boundary Line Adjustment Application. In order to ensure that it meets current Kittitas County Road Standards, the applicant needs to provide the following prior to final approval:

1. A revised legal description that describes the final configuration of the subject property shall be required.

The applicant needs to be aware of the following:

- a. The western portion of the property is within floodplain and shoreline jurisdiction. Prior to performing any work within the floodplain or within 200' of the ordinary high water mark, the landowner shall consult with Public Works and Community Development Services to determine if permits are required.
- b. An approved access permit shall be required from the Kittitas County Department of Public Works prior to creating any new driveway access or performing any work within the county road right of way.
- c. Maintenance of driveway approaches shall be the responsibility of the owner whose property they serve. The County will not maintain accesses.
- d. Any further subdivision or lots to be served by proposed access may result in further access requirements. See Kittitas County Road Standards.
- e. Evidence of existing access and/or evidence of access to be created should be confirmed prior to sale of property.
- f. Access is not guaranteed to any existing or created parcel on this application.

In addition to the above-mentioned conditions, all applicable Kittitas County Road Standards apply to this proposal. Please let me know if you have any questions or need further information.
