

RAFTER DOUBLE C RANCH

March 24, 2014

Jeff Brunson has permission to drive his hay equipment (swather, baler, & haro-bed) across the north side (by the fence) and west side (along the creek) of the middle hay field at 5051 #6 Rd to get to the 13 acre field he purchased from Carneys.

This is to be done at the same time Carneys cut their alfalfa so as not to damage our hay.

This only applies to 2014 for the 1st and 2nd cutting of Brunsons field. After that no access will be permitted.
