Sorry for the delay in my response. Thank you for your communications.
The updated site plan appears to show that septic and well set backs are within code requirements.

Greetings. Below is an email I sent to Holly Duncan. I am hoping to finalize this Boundary Line Adjustment by the end of the day today, and I found a detail in the emails from EH that I may have overlooked when I drew up the Conditional Preliminary Approval. Could you let me know if this is going to be an issue, and if it is, what needs to be done? Apologies on any inconvenience, this was the among the first projects I was assigned as a county employee.

Holly,

I am trying to finalize this boundary line adjustment, and I was double checking to make sure all Department issues were addressed. I looked back on our email threads, and I found a message from you mentioning a shared well user agreement. I contacted the applicant about it, and he does not currently have one. According to Mr. Bailey, only two parcels involved in the adjustment have water, the parcels owned by John and Chad Hamel. A copy of the email is attached, as well as a hyperlink to

the master file with the site plan. I would like to be sure of exactly what is needed, and how the applicant can go about getting it done.
