Holly,

I am trying to finalize this boundary line adjustment, and I was double checking to make sure all Department issues were addressed. I looked back on our email threads, and I found a message from you mentioning a shared well user agreement. I contacted the applicant about it, and he does not currently have one. According to Mr. Bailey, only two parcels involved in the adjustment have water, the parcels owned by John and Chad Hamel. A copy of the email is attached, as well as a hyperlink to the master file with the site plan. I would like to be sure of exactly what is needed, and how the applicant can go about getting it done.
