We do not have a requirement for handwashing stations, although we do recommend them as an option when possible.

The quilomene project looks to be acceptable as it is proposed.

What is your take on this? Handwash or not?

Debbie,

I am CC'ing Environmental Health to get you in touch with them to discuss their requirements.
Thanks for the quick reply.

Good morning Dusty,

At this time Grant PUD does not have a contract to build the floating restroom. Permits need to be authorized before a grant can be issued to Grant PUD to build and purchase the floating restroom. Grant PUD has vault toilets at all the recreation sites they manage on the Priest Rapids Project with no hand washing stations. Is this a requirement of Kittitas County?

Debbie,

Could you help myself and Holly Myers locate where on the site plan the locations for handwashing areas are?

Can you verify the presence of a handwashing area for the Quilomene PF.

I was thinking I had commented on Mitchell BLA already didn't I?
For the Quilomene project I didn't see anything indicating handwashing. If there is handwashing available where is the freshwater/potable water coming from?

Greetings. I was wondering if Environmental Health has had the opportunity to look over this Public Facilities permit yet, that is associated with a shorelines substantial development permit. Also, I am wondering if anyone at EH has had a chance to look at the revised site plan for the Mitchell Boundary Line Adjustment. Links to both are below.
