Holly – I had a chance to discuss with John and attached is the updated site plan. The structure in back is a Quonset hut used for storage and no longer has any services. The well for 3590 Wilson Creek road is on the parcel to the north owned by John and not a part of this application. The existing conditions will not be affected by this BLA application as the boundary we are trying to adjust is approximately 1200' east of the structures. Please review the updated site plan and contact me or John back with any questions

Kelly – We will submit a preliminary survey for final review when the COA's are given to address all comments in the PW letter. Please review and contact me or John back with any questions

Thanks,
