Hi Ginger,

This application was sent out for comment on March 11th with an end date of comments on March 26th. Unfortunately, many of our employees including Rachael have been on leave since end of day March 23rd. We are working on trying to conduct some services and when we have a plan moving forward, hopefully, by the end of this week, Rachael will be able to provide a status update. Currently, processing is at a standstill.

Best,

Lindsey Ozbolt

Subject: OGG BLA BL-20-00008

Dear Rachael:

I received a call today from the client wanting to know the status of the above BLA. When you get a free moment could you let me know if the project has been given preliminary approval?

Thanks for all your help,

Ginger :]

A message regarding COVID-19: Over the last several years Encompass has made significant business continuity investments to ensure our ability to operate during a local, regional or national disaster. At no point did we envision a global pandemic. While our top priority is the safety of our employees, we want to assure our clients that, despite some delays that are out of our control and unavoidable, we are currently operating with minimal disruptions. Because of the Governors Order and further clarification that residential and commercial construction is not exempt, we are not able to send our surveyors out to any job site. Our physical offices are closed but employees continue to work from home, phones will be answered and your project will continue to move forward as much as possible given the circumstances.
