Matt,
Attached is the signed boundary line adjustment.

Regards,

Miroslava Rivera

Miroslava-

Today I was informed that the District application for the boundary line adjustment cannot be accepted at the Kittitas County until it has signatures from both land owners involved. This application doesn't convey property, but it does start the review process for the application.

For reference, the following link will take you to the online file for a recent boundary line adjustment between two separate landowners in Kittitas County. [Kittitas County Community Development Services | Land Use](#) If you look at the application filed by the parties in this case, each landowner separately signed a page 3 of the application (see file BL-21-00002 Kypreos-Collins Application for example). To complete this application, I need the attached page 3 signed by BPA just like these parties did.

Could you present this application to the appropriate person in real estate at BPA with the authority to sign this application?

It is my understanding the county will require either a new Record of Survey or possibly 2 separate quit claim deeds for the actual conveyance of the property to be swapped.

Thanks for all your assistance,

Matt Boast
