KCCDS

The boundary line adjustment was required in order to sell my adjoining property to my son. He couldn't get a loan on 24.5 acres so we flip-flopped contiguous properties so he could buy it. No parcel changes occurred - he was living in the house on Hwy ~~1110~~ 97 at 11110. The house has its own septic system and well. There is no other "project" beside the property exchange.
