I received comments from Kelee Hodges yesterday on this. It looks like comments on this were required by 2/5/22… That said it just looks like an old concrete slab. I thought maybe it was a structure that was destroyed in the Taylor Bridge fire, but looking at old satellite photos I don't see any structures dating back to 1985.

Jeremy:

Good morning! I wanted to reach out in regards to this BLA. While reviewing for survey comments, I noticed that they have a "building pad" noted on the map. This pad is on the boundary line for both lots. I noted it for survey but was not sure if this is something that you would also have comments for? It's not a building yet but looks like it may be in the near future?

Thank you!

Kelee Hodges
