Re: BL-23-00001 Andersen

Regarding the above, the KCFMO does not see any issue with approving the proposed boundary line adjustment. This adjustment does not appear to increase nor decrease any fire hazard(s) associated with the area. It is imperative that any future structures/improvements are compliant with applicable sections of the International Fire Code and Kittitas County Code.

Thank you for your time.

Deputy Fire Marshal,
Joseph A Dietzel
