Subject: Gibson Produce Permit

Dear Lindsey,

I understand that Gibson Produce is applying for a permit for their current location. I have so enjoyed going to her produce stand. She tries to carry mostly local produce, has a wide variety to choose from and the prices are exceptional. She even carries fresh eggs. She engages people in conversation and you feel a part of a community when shopping there.

I know that there has been some difficulty with the Thorp Fruit and Antique Store across the freeway, but I feel both places serve the community well. Gibson Produce is a great supplier for the locals and Thorp Fruit and Antique Store serves mostly travelers and tourists. I think there is a place for them both.

I hope you grant the permit for Gibson Produce. It is a valuable asset for us.
