KITITAS COUNTY

Petition to SAVE GIBSON PRODUCE

Petition summary and background
On May 12, 2012, Terry and Kathy Christman opened Gibson Produce at 8341 S. Thorp Highway. A complaint has been made that this business does not meet the requirements as stated under Chapter 17.31 of the Kittitas County zoning regulations because the fruit and produce sold at this location is not raised on site. This is an appeal to the Kittitas County BOCC to allow Gibson Produce to remain and operate at the present location in the same manner as they have since obtaining their license.

Action petitioned for
We, the undersigned, are concerned citizens who urge our leaders to act now to save Gibson Produce, a family owned business, by allowing them to operate at the present location of 8341 S. Thorp Highway. We attest that this business provides a valuable service to the community and has not negatively impacted the community.
