Hi Igor, the County Engineer has already reviewed the site plan as it was presented during the public hearings. That plan is approved. If any changes are made to the plan involving the site infrastructure we would like to re-review the plan. If no changes are proposed than nothing further needs to occur.

Good morning Christina:

The condition of approval no. 13 states that the site must be constructed as designed and approved by the County Engineer. When you get a chance, would you please let me know specific steps to obtain this authorization? If there's anything required on our part by the County Engineer, then would you please let me know what information needs to be provided to the Public Works Department.

Thank you for your help,

Igor Shaporda

Hello Igor,

I will be sending GC PUD and WA Parks an email shortly with a transmittal letter that was sent to Dept. of Ecology today. The County approved the CUP and Shoreline Substantial Development Permit, but we also have to send it to Ecology for their approval because of the Shoreline. I could not send them the file for their review until after the appeal period ended.

In regards to when and what will be required for meeting condition of approval no. 13, I will refer you to our Public Works Department. Christina Wollman should be able to assist you with what will be necessary to meet this condition. Once the shoreline substantial development permit is approved by Department of Ecology and all conditions of Resolution 2013-120 have been met, Kittitas County Community Development Services will issue a Conditional Use Permit.

You can contact Christina Wollman at christina.wollman@co.kittitas.wa.us or at 509-962-7051.

Please let me know if you have any other questions.

Regards,

Lindsey, thank you for the Notice of Decision and Resolution. The condition of approval no. 13 states that the site must be constructed as designed and approved by the County Engineer. When you get a chance, would you please let me know specific steps to obtain this authorization? Is there an additional application we need to fill out or process to go through? If there's anything required on our part by the County Engineer, then please let me know what is required and when this information needs to be provided to the County Engineer. Thank you for your help,

Kittitas County has made a decision of approval on land use applications CU-13-00004 & SD-13-00001 through Resolution 2013-120. Please see the attached Notice of Decision and Resolution. Agencies within the county network may review the application file via the T-drive. Agencies outside of the county network can view the file documentation by following this link: <http://www.co.kittitas.wa.us/cds/landuse.asp> and opening the designated file by application number. Please note all file documentation are CU-13-00004.
