Good morning Dr. Hayden.

You do not need to check with the building department. A landscaping plan is not required. I have verified this with our building department. Typically, landscaping plans are a function of the land use and for this project and use, it is not required. I did speak with Janet at Architectural Werks about this in mid-December as she was concerned about the need for a landscaping plan as well. I gave her the same information I have given you.

Thank you for checking.

Lindsey,  
Thanks.should I pose this question to someone in the building permit office as well--ie is a landscape plan required when we submit a building permit application?  
Thanks,

Mark Hayden

Hello Dr. Hayden,

I am back from vacation and working my way through my emails. In regards to your question about a landscaping plan, Kittitas County does not have a landscaping plan requirement for conditional use permits unless certain landscaping elements were proposed in the application to Kittitas County or were placed as conditions of approval. Your application CU-13-00006 does not require a landscaping plan.

I hope my response has addressed your concern.

Lindsey,

A quick question; I am not sure if this is your department or not: When we apply for a building permit for our new Veterinary Hospital, is a landscaping plan required?

Thank you and Happy Holidays,

Mark Hayden
