KVFR has the following comments on the proposed substation:

1. The property will be addressed according to Kittitas County Code with the address clearly visible from both directions of travel.
2. The property owner will provide KVFR with a site specific plan on mitigation of electrical hazards on the property.
3. Access to comply with Appendix D of the current IFC.

Thank you – the above are recommendations as KVFR is the not the authority having jurisdiction for this project.
