Hi Mike.

It is in line to be processed. I will notify you as the process proceeds.

Regards,

**Lindsey Ozbolt**

Lindsey,

Any word on the status of this application? As my situation being in AG-20 is so close to being outright permitted, I am hoping this is not going to be a difficult process.

Thanks,

Mike

Lindsey,

Thank you for your help in checking my submitted ACU for completeness. As mentioned, I am following up with the documents in electronic pdf's for your internal use. This may be helpful to supplement the scanned images of the originals.

If possible, please keep me informed as to the status of the application. This use is agricultural and dependent on the outdoor growing season. We have employees standing by to begin working on the farm so it would be

nice to be able to communicate an expectation to them that we will be able to provide these jobs. Decent paying jobs in the county are not easy to come by so keeping this permit timeline in check would be much appreciated. There is no new construction, the land use is consistent with farming operations in AG-20 and the concerns of these new zoning rules have been fully vetted by the commissioners so we are hoping things will move along smoothly.

I am available at anytime in the process for any additional information that might be required.

Kind Regards,

Mike Graham
